VIETSAGE DEMO FACTS

Fictional records for local RAG and reading workflow checks

All names, prices, hours, policies, schedules, and constraints in this document are synthetic test facts. They do not describe a real hotel or service and contain no map coordinates, reviews, photos, or booking authority.

Dataset: vietsage-demo-facts-2026-09 | Provenance: demo | Status: synthetic | Authority: non-authoritative

A service request needs explicit guest confirmation in the app; this corpus does not authorize a real request.

2. FICTIONAL DISCOVERY RECORDS

Each row is an independent fact. A planner may select records according to requested duration, weather, budget, and constraints; this document does not prescribe a fixed itinerary.

Xưởng Mây Giấy	workshop	09:00-17:00; closed Monday	90	70.000 VND	indoor	any

3. FICTIONAL STUDY SCHEDULE

The following slots describe availability in a synthetic study setting. A missing or closed slot should be treated as unavailable rather than inferred.

Slot	Activity	Room	Availability
08:00-09:30	deep reading	study pod A	open
09:30-09:45	break	courtyard	open
09:45-11:15	practice problems	study pod A	open
13:30-14:30	group review	study pod B	open
14:30-15:00	quiet review	study pod B	closed for maintenance

Use these records to test fact extraction, grounded discovery, comparisons, budget arithmetic, variable-length planning, and fallback when a requested field is absent. The default corpus does not include the negative fixtures in data/demo/negativecases.
